## WELCOME

Tera resin TC-85 is the world's first material for direct 3D printing of aligners that is already CE and KFDA certified and also has FDA approval. The processing of Tera resin TC-85 differs in significant ways from normal 3D printing and must follow the processing protocol established by Graphy Inc. to produce flawless aligners. This workshop is primarily aimed at doctors, laboratory technicians and assistants. The technical necessary steps in the processing of Tera resin TC-85 will be demonstrated.

09:00	Registration and Welcome Coffee
09:30	Deep-drawn aligners vs. directly printed aligners
10:00	The special properties of Tera resin TC-85 and special characteristics during printing
10:45	Coffee Break
11:00	Digital workflow: from patient to aligner file
11:15	Preparation of the aligner file for printing
12:30	Lunch Break
13:15	Presentation of the equipment necessary for processing Tera resin TC-85
13:45	Printing of aligners
14:30	Coffee Break
14:45	Correct post-processing of aligners incl. tips and tricks and FAQs
16:00	Farewell
